In the recent negotiations [redacted] relative to the transfer of the [redacted] it was agreed that all personnel employed at our Station would be cleared for security by the [redacted] as well as our own. It behooves us to decide without delay what members of your locally recruited staff you would recommend for transfer to the new Station [redacted] and to take the necessary action to obtain proper security clearance.

At present we have no way of checking on the locally recruited staff through U.S. sources. It is our understanding that this staff has been checked [redacted] I think we can assume that any member of this staff who is acceptable [redacted] for employment on [redacted] will also be acceptable to our Government. I wonder if you have any formal and written record of this security clearance. Again it is possible [redacted] might not approve some of this personnel for employment [redacted] though they have been approved [redacted] In view of the foregoing it is desired that you take the following action with the least practicable delay:

1. Inform this office of the exact status of locally recruited personnel insofar as security clearance is concerned.

2. Select those individuals who would be recommended for transfer [redacted] do not actually inform these individuals, and if it has not already been done, obtain formal and written security clearance [redacted] for these individuals. Copies of such clearance should be forwarded to this office.
